

THE ANTHONY CHAMBER OF COMMERCE

The Anthony Chamber of Commerce was chartered in 1919. We just completed our 90th year. 2009 will be remembered for the tragic fire in downtown Anthony but as we move forward in 2010 let's focus on what remains and not what we lost. Our theme going forward is *"Honoring Our Past and Celebrating The Future"*.

For more than 90 years the Anthony Chamber of Commerce has provided aggressive leadership in addressing our community needs. The Chamber is aware of the numerous needs of our community and will continue its efforts to satisfy these needs.

Because our Chamber is well supported by a large segment of the local area business, industrial and professional community, most citizens and business people recognize the value of the Chamber's group effort in dealing with community, state and national problems.

The mission of the Anthony Chamber of Commerce, as stated in the Articles of Incorporation, is "To promote business and community growth and development by: promoting economic programs designed to strengthen and expand the income potential of all business within the trade area; promoting programs of a civic, social and cultural aesthetic values of the community; and discovering and correcting abuses which prevent the promotion of business expansion and community growth".

We realize that the Chamber means many things to many people. The very diversity of interests and concerns represented by Chamber members contributes to the organization's strength and vitality. Yet, the underlying goal we all share in our efforts through the Chamber is to make Anthony an even better place in which to do business and enjoy the unique quality of life we cherish.

We are proud to list the members of the Anthony Chamber of Commerce in this directory, who continually make an investment of time, money and service in Anthony and the Anthony area.

Be sure to read a sampling of some of the first chamber minutes in the back of the book.

The following are some of the programs and activities the Anthony Chamber of Commerce participates in by furnishing the leadership, staff, volunteers and funds to achieve success.

- Annual Meeting & Awards
- Shopping Anthony Monthly Flyer

MEMORIES FROM THE PAST

Enjoy reading some of the first Booster Club minutes
published in the Anthony Republican
January 30, 1919

Your Chance To Boost For Anthony

The Anthony Commercial Club is making a bid for new members.

This is an opportunity to link up with the biggest factor in the commercial life of Anthony and should not be overlooked by the young men of this town.

The Commercial Club wants young men – men of energy and ambition who are willing to boost and pull together. It must have them or become a dead letter. Young men with new ideas, who are not afraid of work and sacrifice of time will find in the work of the Commercial Club opportunity to meet the acid test of business acumen and executive ability. The field of endeavor is boundless. All it needs is young blood to develop it.

In the words of the retiring president a man rapidly outlines his usefulness in an organization of this kind and through he may still continue to be interested he lacks the vim and push of the new man – so essential to a live commercial organization. This statement is, however, not true of the retiring president whose energetic influence will still be felt in the work of this organization.

Membership dues of the Commercial Club are but fifty cents a month. No businessman can afford not to be linked up with this organization and its big work of boosting Anthony. Firms should refrain from joining as an organization as it is the personal influence of business and professional men as individuals that counts in this kind of work.

When the membership committee comes around and asks you to join, don't hesitate, but line up for progressiveness in Anthony. You'll never miss the fifty cents a month.

Intellectual Prostitutes – All?

(This was just an interesting article on the side)

Hamilton Hold, editor of the "Independent," in one of his many works speaks of his own profession in bitterly cynical words, condemning it because of certain influences, which determine the complexion of its products. He says:

In America there is no such thing as an independent press. I am paid to keep my honest opinion out of the paper with which I am connected. If I were to permit my honest convictions to be published in an issue of my paper, my position would end in twenty-four hours. It is the business of a New York journalist to distort the truth, plainly to lie, to pervert, to libel, grovel at the foot of Mammon and to sell his country and his race for his daily bread. We are the tools and vassals of the rich men behind the scenes. Our time, our talents, our life, our abilities – all are the property of other men. We are intellectual prostitutes.

11 Business Men Join Booster Club

January 13 1919

Charter Members Make Dues Low Enough to Admit All Boosters

Nine business and professional men and two firms became Charter members of the Anthony Booster Club Monday night, at the meeting called at Gard's west furniture store for the purpose of actual organization. The turn-out, though small, was enthusiastic; and the business of re-organization, of mapping out of plans for the future of the club and of determining the policies it will adopt regarding town and county problems were discussed informally.

The Anthony Booster Club was started several months ago but due to the influenza quarantine meetings were impossible and so the question of live business organization which should reach all the business and professional men and also farmers of Harper County who wish to join hands with the Anthony business men in promoting and pushing any project intended to promote the welfare of Harper County lay dormant until last night when it was revived and a reorganization of the club was effected on a cash membership basis.

The question which received the greatest amount of consideration and discussion was the adoption of and amendment to the by-laws of the club to the effect that the dues of the Booster Club shall be low enough to attract all men who wish to boost for the community and shall not be so excessive that otherwise capable and enthusiastic citizens will be barred from participation on the work of the club because of high dues. The amendment was adopted and the dues of the club established at two dollars a year per member. An extra assessment of three dollars is to be

levied where the firm as a whole, as well as the individual members of that firm, wishes to be represented.

The constitution and by-laws of the Anthony Booster Club were adopted sometime previous to the quarantine. As all the officers, elected at the time of the organization of the club, were present, except one, their election was confirmed upon the payment of the membership dues. As Lester Combs, original secretary of the club, has moved to Parsons, Edmund C. Bechtold, editor of the Republican, was elected to the position of secretary, of the club. The other original officers of the club are Al Gard, president; A.A. Grainger, vice-president; and T.A. Edgerton, treasurer.

The eleven men who joined Monday night constituted themselves a membership committee as a whole and will offer charter membership in the club to all business and professional men and farmers of the vicinity during the next two weeks. Those individuals and firms, which have signified their intention of becoming members and have paid their dues by the night of February 10, the next meeting night, will be considered charter member of the club.

It was the consensus of opinion of the men present that the Booster Club was to co-operate to the greatest possible extent with the existing Commercial Club and with the new women's club, now being formed. It was pointed out by individuals that all three of these organizations have the same ideals and ambitions and that the work of the three though not distinctly separate nevertheless will not overlap. On the contrary, each will find sufficient work along the same general lines to keep them busy if these organizations are to be the success they are intended to be. Likewise the subject of committee work was discussed. The universal opinion seemed to be that too much vital work was shouldered on to committees and that the average member did not feel that he had a responsibility unless he is a member of a committee. To prevent this lethargy on the part of the average member it was decided that the work of committees, as such, was to subordinate, to bring all members into more active participation in the work of the club.

As the first work, which the club is to engage in is road-building, the secretary was instructed to gather all the available information and data on the proposed national and

state road building proposition. A get together social stunt is being planned for the immediate future.

Those who joined the Anthony Booster Club Monday night are: Al Gard, A.A. Grainger, T.A. Edgerton, E.A. Hancher, R.R. Regnier, H.W. Priest, C.A. Wehe, C.M. Carrithers, C.L. Rhodes, The Anthony Bottling Company and the Anthony Republican.

WAKE UP ANTHONY

February 13, 1919

A few of the business and professional men and some of the club women of Anthony seem to have seen the handwriting of stagnation on the wall and are beginning a most energetic campaign to awaken Anthony to the need of co-operative boosting.

Snugly contented with its prosperity and the progress it has made in the past, the City of Anthony as a whole is resting on its oars and drifting with the tide. Fish swim against the current; likewise progressive cities cannot afford to drift with the current for it never leads to anything but civic suicide. We need to stem the tide and push with united strength to bring Anthony to the front rank of the cities of Kansas, where she rightfully belongs and where genuine civic boosters would like to see her.

But cities are not put to the fore by wishing or by sitting still and letting the other fellow do the pushing. We are in an era of city expansion which is sweeping the country like wild-fire and the city which is not being advertised and talked by its citizens upon every possible occasion stands a good chance of being shelved as a back number.

Anthony is far from being dead; but there is a danger most imminent, that we will permit other smaller and less prosperous towns in this part of the country to outstrip us in civic progress by not keeping thoroughly awake to the necessity of town advertising. **Talk Anthony to everyone with whom you come in contact.** Let the rural shoppers feel that Anthony offers better bargains than any other town in southern Kansas. Boost for good roads, and boost, first of all, for paving in Anthony; for, the good work must begin at home.

Citizens of Anthony, you who are reading this, jar yourselves loose from your easy chair long enough to get out among your neighbors in town and country and **work up some of that kind of enthusiasm which**

Anthony will need huge quantities of in the very near future if she wishes to assert her position as the foremost city of this county. What we need is 99% Simon Pure Pep, Enthusiasm, Co-operation, and Work; backed up with 100% Good Judgment. And – QUICK KNOCKIN!

Booster Club 57 Members

February 13, 1919

More than seventy men attend enthusiastic meeting held Monday night, 57 Charter Members

EASTHAM SPEAKS

Good roads and how to secure them is the main topic of discussion, good roads committee appointed to start petition.

What was probably the largest gathering of Anthony business men held here for some time met Monday night at Gard's west furniture store to permanently establish the charter membership of the Anthony Booster Club. Over seventy men were present, and of this number fifty-seven became members.

It was quite natural that the matter uppermost in the thoughts of all Anthony merchants today, the hard-surfacing of country roads in this part of the state, should consume the major portion of the evening's discussion. C.C. Eastham, County engineer, gave an excellent talk on the proposed legislation to permit the state to expend state funds for the construction of roads and thus avail itself of the government appropriations for that purpose. He explained what kinds of roads would be acceptable and what procedure had to be gone through with to secure permission to go ahead with construction work.

"After you have decided what road you want to see hard-surfaced," said Mr. Eastham, "you must be sure that from 63 to 70 percent of that road is a mail route if you expect federal aid. Furthermore any east and west road must connect up with the Meridian Road, and any proposed north and south road must connect up with the road. The petitions must then be drawn in proper style. After it has been drawn, it must be approved by the state attorney general. If it meets his approval he will return it for signatures. After it has been signed by the proper number of residents along the road it is returned for final approval and action."

A roads committee composed of C.C. Eastham, Chm., A.W. Howard, Dick Washbon, J.W. Faubion, and Fred P. White was appointed by the president.

The meeting was enthusiastic, despite the inconvenient meeting place and the chilliness of the room, and the prospects of an energetic organization to accomplish civic improvements are excellent, according to a number of business-men who were present. Meetings are to be held every first and fourth Monday of the month, a warm convenient room to be selected by the next meeting.

The charter membership of the Booster Club, includes the following men and businesses: Robert McGowen, Fred Sohn, Charles H. Deming, E.G. Nold, A.N. Thrumen, Ed Fox, Dr. H. L. Galloway, Fred P. White, Clyde D. Brockett, Frank Potter, Walter Fanning, W.W. Strohmeier, F.O. Price, J.W. Ford, G.G. Garver, Charles May, H.E. Mitchell, W.W. Watts, Frank Gish, L.G. Jennings, J.F. Dickson, Frank Martin, T. G. Sanders, Fred W. Olmstead, T.A. Edgerton, H. W. Priest, A.A. Grainger, C.A. Wehe, C.L. Rhodes, C.M. Carrithers, Rev. G.W. Burch, Al Gard, Grant Kilborn, E.C. Bechtold, R.R. Regnier, Adolph Nordgren, E. A. Hancher, C. C. Eastham, A.W. Howard, G.H. Arnett, Durland Hilts, Ed Reed, J.H. Van Dolah, Joe Galloup, T.F. Fanning, Ed C. Wolff, R. M. Washbon, W.S. Durham, P.E. Underwood, C.E. Simmon, A.S. Holbert, Harry Roberts, Prot White, Fred Glover, James H. Joseph, E.C. Wilcox, J.W. Faubion, Orient Café, Gard & Son, Anthony Republican, Anthony Bottling Company, Pastime Confectionery and Anthony Steam Laundry.

WHISTLE CALLS BOOSTERS - April 3, 1919

When you hear the whistle of the mill – the old familiar siren – blowing a peculiar signal Monday afternoon at about half after three and again at a quarter after seven do not rush to the phone to learn where the fire is or who has been murdered or what not. It will be the signal for something just as important as the foregoing but not so dangerous.

The Booster Club has so many members that it has become practically impossible to reach them all by telephone and so it was decided at the last meeting of that organization to use a siren signal to announce its meetings. The signal is three blasts, a short, long, shot.

The Booster Club meets regularly every other Monday in the auditorium of the City Hall.

PLAN BOOSTER TRIP THREE DAY IN MAY
Fifty Business and Professional Men to Take Jaunt to
Advertise Anthony

An Anthony Booster Trip about the middle of May is the suggestion made by William M. Barber at the meeting of the Anthony Booster Club Monday evening.

Mr. Barber suggested that Anthony business and professional men plan on an extensive automobile trip through the country south, southwest and west of Anthony and spread the gospel of Trade at Anthony among the people of this territory. It was no little one day affair which Mr. Barber came before the Club to suggest but a life-size, three day trip which would permit enough time to visit at least fifteen or twenty towns, allow for distribution of souvenirs and advertising literature, meeting of the townspeople and a general social good time. The trip as outlined by Mr. Barber would not be very expensive to any individual and would give everyone participating in it more than his money's worth in good times besides proving of infinite good to the town.

The reason for setting the date of it early, perhaps May 14, 15, and 16, is to precede the big city booster trip which Wichita business men are planning on to commence May 19. As they will cover the same territory through which the Anthony men would travel and might cause the Anthony trip to pale somewhat due to the elaborate preparations the Wichita men are making. They plan to have a special train of six Pullmans and an airplane will precede the train and drop down in the town square just before the train gets there thus drawing the crowd together. It is estimated that the expense of the men going on the Wichita trip will be \$120 for six days.

A committee of the Booster Club of which Mr. Barber is a member has been appointed to arrange for such a town advertising trip, working in harmony with a similar committee from the Commercial Club and these two committees will work out the final details and arrange for the financial backing of the trip.

The plan suggested and meeting very favorable recognition is to pool all funds, each man taking the trip paying so much for the privilege of going along. The fee suggested is three dollars a day, provided as many as 50 men, will take the trip. Car owners would be reimbursed for the use of their cars and all gasoline and oil would be

purchased from the common fund in charge of a club secretary.

To cover the general expense of town advertising circulars, souvenirs for school children and other incidentals, subscriptions will be received and applied to these uses. Mr. Barber started the subscriptions with fifty dollars in addition to another sum of thirty dollars for school children's souvenirs.

Anthony merchants stages one of the biggest and best booster trips of the south west in June 1910, when about 40 people took a trip via automobile throughout this territory. Their route included the following towns: Danville, Argonia, Freeport, Bluff City, Manchester, Wakita, Jet, Yewed, Lambert, Cherokee, Ingersoll, Driftwood, Byron, Amorita, Waldron, Corwin, Hazelton, Kiowa, Medicine Lodge, Sharon, Attica, and Harper.

The boosters carried a band with them and were given royal receptions in every town in which they stopped. Speeches were made by Anthony professional and business men and souvenirs distributed.

BOOSTERS WILL BANQUET

May 22, 1919

Regular Monday Meeting Night Will be Given Over to a Big Spread with Which Business Will be Combined.

The Booster Club will banquet at the Montezuma Hotel Monday evening at eight o'clock. As this is the regular meeting night of this businessmen's association a brief business meeting will be combined with the banquet. Arrangements for the banquet are now in the hands of a committee who are planning to have same at the Montezuma Hotel dining room.

The secretary of the club is making an effort to secure the services of an out-of-town speaker for the occasion. There is a possibility that a prominent Wichita man will be obtained for the evening.

All members and friend who desire to attend are urged to get in touch with one of the officers and secure reservations for the banquet. A large attendance is expected. Other special numbers are on the program.
